TO WHOM IT MAY CONCERN

It is a pleasure to write a recommendation letter for Mr. Amjad Ali. The following information would help to introduce him as well as convey my wholehearted recommendation that he be admitted as a MS graduate student along with scholarship. He is an excellent problem solver, with ability to produce results in short time.

He has a deep understanding and a penetrating insight of the concepts that have come across during my observation as a student. He has firm grasp of the theoretical aspects as well as practical implications of the ideas presented to him during our interaction. He has a capacity for both being punctual and persistent. He is a motivated and innovative individual who works with dedication and likes to meet the deadlines. I have found him to be an intelligent, hardworking, diligent and very determined person. During the various presentations that I have seen him, he exhibits a fair amount of self-confidence, and he is well organized. His command on English language is excellent and he can express his ideas and concepts in a clear and concise manner both orally and in writing.

Being his teacher, I got the opportunity to observe his academic and research performance throughout his academic and professional career. With superb academic and research background, I am confident that he will excel during the MS program so I give him my highest recommendation.

Prof. Dr. Zahid Hussain
Professor & Pro-Vice Chancellor
